## HOW WE STARTED?

Founded in 2001, **Maheshwari Enterprise**, based in Jamnagar, Gujarat, India, is a leading Manufacturer, Exporter, and Supplier of custom drawing-based Ferrous & Non-ferrous metal components, pneumatic components, sheet metal components, precision turned components, and more. With a solid track record of overcoming market challenges, we proudly hold membership in **JFOA**, validating our authentic presence in the industry.

## OUR POSSESSIONS

To ensure efficient business operations, we've established a cutting-edge infrastructure. Our expansive production unit, equipped with state-of-the-art machinery, handles various processes like drawing, milling, drilling, threading, chamfering, grooving, punching, and electroplating. Covering a significant area, our setup empowers us to successfully execute projects within specified timelines. Additionally, our quality, engineering, warehouse, and packaging sections are well-equipped with advanced resources, managed by an experienced team.

## WHAT WE OFFER

Dedicated to excellence, we emphasize continuous product development. Our strategic approach ensures that all business activities align with our clients' specific requirements. Notably, components like Brass Plug Pin, Brass Auto Parts, Brass Inserts, and Brass Sanitary Fittings are crafted from top-notch Brass Spares, guaranteeing optimal performance. Our commitment to quality is evident through rigorous testing using precision instruments like micrometers, standard gauges, and vernier calipers. This meticulous process affirms our products' premium standards in terms of finish, design, and durability, solidifying their high-end brand value.

# QUALITY ASSURANCE

Maheshwari Enterprise is committed to stringent quality assurance across its operations. From careful material selection to utilizing advanced machinery, the company ensures excellence in manufacturing processes. Rigorous testing using advanced instruments guarantees impeccable results, adhering to ISO 9001:2015 standards. This commitment reflects Maheshwari Enterprise's dedication to overall excellence, customer satisfaction, and continuous improvement, making it a reliable choice for quality-driven solutions.

# PRESSURE PARTS

ME-PP1005

ME-PP1006

Elevate your products with our **pressure parts** at the forefront of meticulous design. Renowned for exact specifications and optimal performance, these components, crafted with advanced machining techniques, bring exceptional precision to dimensions and surface finishes. Perfect for diverse industries, our precision parts ensure heightened efficiency and quality, making them ideal for **applications in aerospace, medical devices, and automotive engineering**. Trust in our commitment to craftsmanship and technological innovation for components that stand out in excellence.

**Applications:** Aerospace, Medical, and Automotive Engineering.

**Material:** Brass, Mild Steel, Stainless Steel, Copper.

**Finish:** Copper, Nickel, Tin, Zinc, Gold, Silver.

# PRECISION PARTS

Fuel your products with precision! Our **precision components** bring a blend of meticulous design and outstanding performance. Created using state-of-the-art machining techniques, these parts shine with precise specifications and impeccable finishes. Tailored for industries craving peak efficiency and quality, these precision marvels **excel in aerospace, medical devices, and automotive engineering**. Immerse yourself in the pinnacle of craftsmanship and innovation - opt for precision that captures attention!

**Applications:** Aerospace, Medical, and Automotive Engineering.

**Material:** Brass, Mild Steel, Stainless Steel, Copper.

**Finish:** Copper, Nickel, Tin, Zinc, Gold, Silver.

**Seiri / Sort:** Separating of the essential from the nonessential items

**Seiton / Straighten:** Organizing the essential materials where everything has its place

**Seiso / Shine:** Cleaning the work area

**Seiketsu / Standardize:** Establishing a system to maintain and make 5S a habit

**Shitsuke / Sustain:** Establishing a safe and sanitary work environment (Safety)

Empower your machinery with our dynamic **press parts!** Engineered for performance, these components are the backbone of seamless operations. Crafted with precision and reliability, our press parts ensure optimal functionality and durability. Tailored for various applications, these parts **excel in diverse industrial settings.** Trust in our commitment to delivering components that withstand the rigors of heavy-duty use. Choose reliability, choose excellence - opt for our standout press parts!

- Applications:** Diverse Industrial settings.
- Material:** Brass, Mild Steel, Stailness Steel, Copper.
- Finish:** Copper, Nickle, Tin, Zinc, Gold, Silver.

Energize your systems with our efficient **pneumatic parts!** Ideal for manufacturing, automation, and robotics industries, these components ensure seamless operations. Crafted with precision and reliability, they optimize system performance, making them **perfect for diverse applications.** Elevate your equipment with durable and precise pneumatic parts. Trust in our commitment to excellence - choose reliability, choose excellence with our standout pneumatic components!

**Applications:** Diverse Industrial settings.  
**Material:** Brass, Mild Steel, Stailness Steel, Copper.  
**Finish:** Copper, Nickle, Tin, Zinc, Gold, Silver.

ME-EP1009

Energize your setups with our cutting-edge **electrical components!** Tailored for top-tier performance, these parts drive seamless electrical operations. Crafted with precision and dependability in mind, our electrical components enhance functionality, ensuring efficient power delivery. Suited for a range of industries, from electronics to energy, these components **shine in diverse applications.** Boost your systems with electrical parts engineered for durability and precision. Rely on our commitment to excellence, where each component signifies quality craftsmanship. Opt for reliability, choose excellence - embrace our exceptional electrical parts!

**Applications:** Diverse Industrial settings.

**Material:** Brass, Mild Steel, Stainless Steel, Copper.

**Finish:** Copper, Nickel, Tin, Zinc, Gold, Silver.

Bolster your structures with our sturdy **fastener parts!** Engineered for resilience, these components form the foundation of secure assemblies. Crafted with precision and reliability, our fastener parts ensure robust connections, offering stability and durability. Tailored for **applications in construction, manufacturing, and automotive industries, these components excel in various projects.** Strengthen your structures with fastener parts designed for precision and endurance. Trust in our commitment to excellence, where each part stands as a testament to quality craftsmanship. Choose reliability, choose excellence - opt for our standout fastener parts!

**Applications:** Construction, Manufacturing, and Automotive Industries, Diverse Industrial Applications.

**Material:** Brass, Mild Steel, Stainless Steel, Copper.

**Finish:** Copper, Nickel, Tin, Zinc, Gold, Silver.

**ME-BO1005**

**ME-BO1006**

Strengthen your structures with our durable **bolt solutions**, meticulously engineered for resilience and precision. These bolts serve as the robust foundation for secure assemblies, ensuring long-lasting connections and stability. Crafted with a keen focus on reliability, our bolt collection is tailored to excel across **various applications in construction, manufacturing, and automotive industries**. Trust in our commitment to excellence, where each bolt represents quality craftsmanship. Choose reliability and endurance - opt for our standout bolt collection to fortify your projects with precision and strength.

- Applications:** Construction, Manufacturing, and Automotive industries.
- Material:** Brass, Mild Steel, Stailness Steel, Copper.
- Finish:** Copper, Nickle, Tin, Zinc, Gold, Silver.

Elevate your projects with our durable **turning parts**, meticulously crafted for precision and reliability. These components, **tailored for construction, manufacturing, and automotive applications**, ensure seamless connections and enduring performance. Trust in our commitment to excellence, where each turning part stands as a testament to quality craftsmanship. Choose dependability and precision - opt for our standout collection to enhance your structures with enduring strength.

**Applications:** Construction, Manufacturing, and Automotive Engineering.

**Material:** Brass, Mild Steel, Stainless Steel, Copper.

**Finish:** Copper, Nickel, Tin, Zinc, Gold, Silver.

# CUSTOM PARTS

Distinguished by our commitment to excellence, we go beyond standard offerings to provide a specialized and personalized experience. Our dedication to customization sets us apart, inviting you to bring forth your unique ideas, intricate drawings, and specific designs. We thrive on the challenge of translating your vision into reality, tailoring solutions that precisely match your requirements. Beyond conventional approaches, our expertise extends to crafting A-class precision through the development of custom dies and tooling. Your project is not just another task for us; it's an opportunity to create something exceptional together. Collaborate with us, and let's embark on a journey to shape precision that mirrors your distinct aspirations.

**1200+**  
**PROJECTS**

Until now we have accomplished and furnished 1200+ projects and aced the market in manufacturing.

**80+**  
**CLIENTS**

Currently we are working with more than 80 clients in order to satisfy their industrial needs.

**99.5%**  
**SATISFACTION**

Our organization always looks forward to enhance customer satisfaction.

# OUR TEAM

---

Our team is more than just a group of individuals; we're a synergy of talents working seamlessly towards a common goal. With diverse expertise and a shared commitment to excellence, we navigate challenges collaboratively, ensuring innovative solutions and unparalleled quality. Each team member brings a unique perspective, contributing to a dynamic and creative environment. Together, we form a cohesive unit that thrives on collaboration, constantly pushing boundaries to deliver results that exceed expectations. Our team is the driving force behind our success, embodying the values of dedication, skill, and a shared passion for excellence.
